

About Dan Castro

Dan Castro is an attorney and serial entrepreneur who has built a law firm, a real estate company, a mortgage company, a property management company, and a boot camp for entrepreneurs. Dan spent five years researching the lives of legendary entrepreneurs to understand how they think, why they can spot opportunities that are invisible to others, how they assess risk, how they consistently generate innovative ideas, and how they overcome obstacles.

He is also the award-winning author of the book [*Critical Choices That Change Lives*](#), which is selling all over the world. After Dan's book came out, Fortune 500 companies and non-profits everywhere began asking him to share his insights and wisdom in keynotes and workshops, training corporate executives to think and act more like entrepreneurs.
